Education

Master of Science in Aerospace Engineering
University of Oklahoma ..... December, 2025

Bachelor of Science in Engineering Physics, Minor in Mathematics
University of Oklahoma ..... December, 2023

Associate of Science in Physics and Mechanical/Aerospace Engineering
Rose State College ..... May, 2020

Skills

- Languages/Frameworks: Python, MATLAB, R, C, Fortran, LaTeX, Git, Linux
- Tools: CAD (Solidworks/AutoCAD)
- Domains: Astrodynamics, Aerospace, Systems, Simulations

Experience

Graduate Teaching Assistant, University of Oklahoma
Norman, OK ..... August, 2026 – December 2026

AME-3272: Wind Tunnel Laboratory

◇ Assisted in the setup and operation of the wind tunnel, oversaw data analysis portion of lab sessions, graded all lab reports and excel calculations, and offered office hours for student aid.

Graduate Research Assistant, University of Oklahoma
Norman, OK ..... January, 2024 – January 2026

Sooner Space Research Group

- Researched asteroids and created Mass Concentration models of asteroids for simulations; developed software for modeling, simulation, and orbital analysis as well as Graphic User Interfaces (GUIs).

Graduate Teaching Assistant, University of Oklahoma
Norman, OK ..... January, 2025 – May 2025

AME-4593: Space Systems and Mission Design

◇ Graded project papers and homework, and offered office hours weekly to aid students, and Lead lecture and course material review for an exam while the professor was away.

Research Intern, Langston University/NASA
Remote ..... June, 2020– August 2020

LUNAR-BC program

◇ Performed research on plants and probiotics that would help alleviate immune dysregulation for crew members on their journey to Mars.
